Bicycle-Friendly Driver

This program is designed to teach drivers best practices for sharing the road with people who ride bicycles. This course will benefit all drivers, from fleet drivers to the general public. The 1.5 hour, interactive class and 60-minute virtual class, covers the following topics:

- Common causes of crashes between motorists and bicyclists and how to avoid them.
- Legal and illegal behavior for motorists and bicyclists.
- How to navigate on-street bicycle infrastructure while driving a motor vehicle.
- Why sharing the road is the safest option for both motorists and bicyclists.
- What laws and etiquette we teach bicyclists.

Upon successful completion of the course, participants will receive a Bicycle-Friendly Driver certificate and sticker to display on their vehicle.

Auto-Friendly Bicyclist

This program is designed to teach people who ride bicycles best practices for sharing the road with drivers. This course will benefit all people who ride bicycles with any background or skill level. The 1.5 hour, interactive class and 60-minute virtual class, covers the following topics:

- Common causes of crashes between motorists and bicyclists and how to avoid them.
- Legal and illegal behavior for motorists and bicyclists.
- How to navigate on-street bicycle infrastructure like shared lanes, bike lanes, and green paint.
- Why sharing the road is the safest option for both motorists and bicyclists.
- What laws and etiquette we teach motorists.

Upon successful completion of the course, participants will receive an Auto-Friendly Bicyclist certificate and sticker to display on their bicycle.

Bicycle-Friendly Driver and Auto-Friendly Bicyclist Train the Trainer

This program is designed to train people in your community to facilitate the Bicycle-Friendly Driver or Auto-Friendly Bicyclist course. This course is appropriate for people in your jurisdiction who are in a position to give the BFD/AFB training to groups of people over time. This is a great way to reach more members of your community with the BFD/AFB content. You may wish to consider city staff, business representatives, advocacy group representatives, or other community leaders for this training.
